PRITHIKASREE S B

Email: prithibalan04@gmail.com
Mobile: +91 9342567500

Address: Chennai, Tamil Nadu, India
LinkedIn: https://www.linkedin.com/in/prithikasreesb/

PROFESSIONAL SUMMARY

Data Analyst with hands on experience in Python, SQL, and Power BI. Proven ability to turn complex datasets into actionable insights through internship and projects. Skilled in developing predictive models and interactive dashboards to drive business efficiency.

EDUCATION

Velammal Institute of Technology — **Chennai, Tamil Nadu, India**
Bachelor of Technology -AI&DS — Nov 2021 – May 2025
CGPA: 8.71 (Scale of 10)

SKILLS

Programming & Query Languages: Python, SQL
Data Analysis & ML: Pandas, NumPy, Scikit-learn, Data preprocessing, EDA, Model Evaluation
Data Visualization: Power BI (DAX, Power Query), Excel
Cloud & DevOps (Basics): AWS fundamentals, CI/CD concepts, Docker
Tools: Jupyter Notebook, GitHub

WORK EXPERIENCE

LEPO Enterprise | Chennai, TN, India — **NOV 2025 - Pres**
Data Analyst

- Collecting project specific datasets and perform data cleaning, preprocessing, and feature engineering using Python (Pandas, NumPy).
- Split data into training and validation sets, develop and train multiple machine learning models, and conduct performance analysis between the proposed model and baseline models.
- Evaluated model performance using Accuracy, Precision, Recall, F1 Score, and ROC-AUC metrics, applying cross validation techniques to ensure robustness and minimize overfitting.
- Created visualization to communicate performance insights and prepare detailed technical documentation outlining methodology, preprocessing workflows, model evaluation results and research findings.

InnoByte Service | Data Analyst Intern — **DEC 2024 - DEC 2024**

- Worked on an e-commerce dataset where I performed data cleaning and preprocessing using Python (Pandas, NumPy) to handle missing values, transform variables, and prepare structured data for analysis.
- After processing the data, developed interactive dashboard in Power BI using DAX to visualize sales performance, revenue trends, and key business metrics for stakeholders.
- Streamlined the reporting workflow by building Python to Power BI data pipeline, which reduced manual reporting effort and improved overall reporting efficiency.

CERTIFICATIONS & TRAININGS

- Certification in Python Programming, EduPrep
- Certification in Data Analytics, Coursera
- Certification in Power BI, Mind Luster
- Certification in SQL, LinkedIn Learning

KEY PROJECTS

Self-Operating Sports Shot Classification Using Deep Learning Techniques — **JAN 2025-MAY 2025**

- Developed “Shot Sense:, a CNN based deep learning model using TensorFlow for automated sports shot classification. Trained multiple architectures with data augmentation and hyperparameters tuning, achieving 90% accuracy. Evaluated performance using Precision, recall, and F1-score, and developed the model as a Django based web application for real time prediction.
